My grandfather once told me that there are two kinds of people: those who do the work and those who take the credit. He told me to try to be in the first group; there was less competition there.

## Alumnus Has Fond Memories

The following message accompanied a recent financial contribution from J. Michael Shires of St. Albert:

*I often think of the two years (1986-88) that I spend studying at Concordia. The small classes and helpful professors smoothed the transition from high school to university life. This month (December 1990) I have just completed my last two courses towards my B.A. Degree, majoring in History, from the University of Alberta. I would like to thank the professors and advisors at Concordia that helped me begin the long journey towards getting a University degree.*

### From the Minutes of the Cabinet and Councils

The first Enrollment Management Task Force meeting will be held on Saturday, January 12, from 8:30am to 4:00pm, with about fifty faculty, staff and students participating.

Telephone answering service systems continue to be investigated. Registrar and Admissions areas are particularly anxious to find the right kind of message service to meet their needs.

At the suggestion of the FPC, a team consisting of Cabinet members (President, three Vice-Presidents), the Comptroller, the Chairman of the FPC and a representative of the Support Staff Committee will be involved in the final budget balancing process this year.

The Student Services Council has recommended a locker charge of \$20.00 per student per semester as a means of ensuring that students who really need lockers are the ones who get them. This fee could be recommended to the Board of Regents during the budget process this spring.

The Admissions area will be adopting a new approach that will separate the college calendar into two publications this year: 1) a catalogue for students listing courses/instructors (published in-house), and 2) a glossy viewbook filled with information about the College—to be used as a recruitment tool. The department believes that these two publications will prove more useful to students, and will also result in significant cost savings.

### Opportunities for Students

A planning meeting for an apologetics (rational defense of the faith) discussion group is scheduled for Saturday morning – 10am until noon in Room 222 – under the leadership of Dr. Gary Colwell. He will also serve as discussion facilitator for the participating students.

Representatives of the Faculté St. Jean will be on campus on January 17 to speak to education students interested in the Faculté – 4:00pm, Conference Room.
