## ROUND ONE OF 1988-1989 BUDGET COMPLETED

This week the first round of the 1988-1989 Concordia College budget was completed. It shows proposed expenditures over \$767,000 in excess of planned for income. Beginning next week Round Two of the budget preparation process will begin. I have asked all areas to strive for narrowing the gap between proposed expenditures and planned for income without involving salaries.

Thank you for co-operating in the painful but necessary budgetary process.

Orville C. Walz, President
