

Concordia Holds 1750 Skating Party

By John Nielsen

Events at Concordia College were highlighted recently by a skating party, attended by most of the students. The fact that this will probably be the last such event of the year increased enthusiasm, so that approximately 150 "blade-sharps" spent an enjoyable evening skating to music supplied by the college public address system.

Sunday evening and Tuesday evening, a number of films were shown in the college auditorium. These films were both educational and entertaining. Dennis Louis volunteered his services in running the projector.

Luther Schroeder and Jack Mohr, of the Yearbook staff, report work is progressing very favorably on that publication. All the pictures have been taken, and all material will be in the hands of the printers within the next week or two. It is hoped that it will be possible to have the book ready for distribution by the end of April.
