TESTIMONIAL FROM JONATHA BITTENCOURT VIEIRA

My semester in Concordia was full of new experiences, inside and outside of the University. I came from Brazil and got here in the Canadian winter, that sure was a different weather for me because we don't have such low temperatures in Brazil and all the winter activities that I could experience, like skiing, ice skating, snow shoeing and more. Almost all of these activities were scheduled events for international students.

The people from the university, from students to employees, sure know how to treat their international students. I chose to live in the dorms at the university and I definitely don't regret that, it's easier to meet people and stay in touch with all the events from the university. The classes were a completely new experience for me, I studied music in Concordia and in Brazil, we don't have music classes in every school, so the way that they teach music education here is great. Still in the music area, playing in events and meeting new people in the music department sure made me feel like I was there more than just one semester.

It's hard to talk about all my experiences here, but one thing is for sure, I've enjoyed my time in the university so much that I actually decided to stay here in Canada, since a job opportunity came to me through the university. So I will just leave here my recommendation that if you are looking for an exchange program or even to just study in another university in Canada, Concordia is a wonderful place full of good people.
