***“Trauma, Failure and Deception:
the Path of Foreign Women in Metropolitan France
(18th-20th century)”***

Dr. Joanna Merkel, Assistant Professor of French, CUE

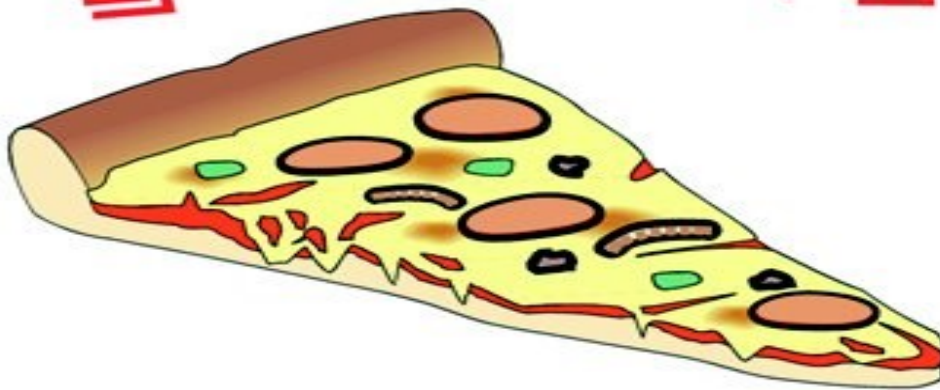

Joanna Merkel holds a PhD in French and Francophone studies from the University of Tennessee at Knoxville and she will be talking about the figure of double alterity represented by foreign women in Metropolitan France, from the 18th to the 20th century. During this time, France went through major historical, political and socio-economic changes that directly impacted the way French people looked at these figures and perceived them. Joanna will focus this talk on several female foreigners, such as Queen Marie Antoinette, as well as authors who created fictive stories, and finally, authors who went through being foreigners and related their experiences in autobiographies. She will show how they went through a common path of trauma, failure and deception while in France.

Belcourt Brosseau Métis Awards

The BBMA Fund provides awards so that Métis Albertans demonstrating financial need, commitment, and a desire to be gainfully employed can realize self-sufficiency through the advancement of their post-secondary education and skills development. Since 2001, the endowment Fund has provided awards totaling over \$6 million to more than 1000 Alberta Métis students.

Awards are intended to assist recipients with essential costs such as tuition and fees, textbooks and supplies. Approximately 140 awards are provided each year, most awards ranging between \$2,000 and \$10,000. Size and number of awards may vary.

The selection process is based on a holistic assessment of:

- Financial need
- Connection to the Métis community
- Career goals and likelihood of improved opportunities

Academic standing is not a primary factor in selection of recipients. Priority is given to first year students, and many students have received awards in later or successive years.
